TECHNICAL SKILLS

Languages: Python, Java

Frontend: Flutter, Dart, UI & UX

Backend: Flask, Rest APIs

Database: Firebase, MySQL

Version Control: GitHub, Git

Concepts: OOP, MVC

,Data Structures

Tools: Microsoft Office, ClickUp

,Jira

PROFILE

Software Engineering undergraduate with experience leading software development projects and managing team collaboration. Skilled in project planning task delegation communication and meeting deadlines while maintaining project quality. Possesses a solid understanding of software development concepts and hands-on experience with Flutter Python Java and web technologies. A quick learner and adaptable individual who can effectively bridge technical development and project coordination to ensure successful project delivery.

EDUCATION

Informatics Institute Technology

Reading BEng (Hons) Software Engineering

2023 - PRESENT

British Council Colombo

2023

- **Spoken English:** Improved fluency, pronunciation and communication
- **Writing Skills:** ability to write essays, emails and reports
- **Academic & Business English:** Enhanced communication for academic and workplace contexts

Nalanda College

2012-2023

- Completed 9 subjects including core areas such as English, Mathematics and Science
- Built a strong foundation problem-solving and academic skills

PROJECTS

SmartHarvest - Smart Agriculture Management System - (SDGP)

2025 - 2026

Team Lead

- Developed a smart farming mobile application to improve agricultural productivity and decision-making.
- Developed frontend and backend functionalities to provide a seamless and efficient platform experience for farmers and buyers. Ensured smooth system performance through effective integration of application features and services.
- Led the project team, managing tasks and coordinating development while integrating smooth system performance.

SDG 4 - Quality Education Web Platform	2024
- Built a structured web platform aligned with using HTML and CSS, focusing on content organization and accessibility. - Designed and implemented responsive UI layouts using modern CSS techniques to enhance user experience and cross-device compatibility. - Applied advanced styling, layout structuring, and semantic HTML practices to deliver a visually consistent and maintainable front-end solution.	

CERTIFICATIONS AND TRAINING

<u>Road to Legacy 2.0 - Technology & Innovation Workshop</u>	2025
University of Sri Jayewardenepura IEEE	

LEADERSHIPS AND ACTIVITIES

SDGP OF IIT	2025 - 2026
Leader	
AIRCRAFT ENGINEERING SOCIETY OF NALANDA COLLEGE	2021-2023
Member	
MEDIA UNIT OF NALANDA COLLEGE	2018-2023
Member
